## JOY SAL67M Stoper

All internal parts in the JOY SAL67M Stopers are also used in JOY 67 Jacklegs, Sinkers and Quarry drills.

High penetration, and very powerful torque.

Convenient operating controls, with push button leg retraction and adjustable motorcycle control feed

Positive lubrication with good front end blow.

Larger mating faces between major cylinder components for longer life and less wear.

Improved pusher leg is available with a stainless steel piston rod to prevent corrosion and pitting.

Available with three inch stainless steel leg cylinder for increased push and penetration in hard ground.

JOY designed steel puller for collared steel available.

Uses rock drill oil or triple zero rock drill grease.

## JOY SAL67M Stoper

*PHQ's powerful SAL67M drills are the raise drills of choice for Hi-balling Mining Contractors*

ISO 9001:2000
